

EOD/ECM Tool Cart

Increasing Operational Safety and Capabilities.

The EOD/ECM Tool Cart meets the growing demand for interoperability between the Bomb Technician, personal protective equipment, IEDD tools and ECM.

The EOD/ECM Tool Cart enables a Technician to make a single manual approach downrange by securely transporting up to 90 kg [200 lb] of IEDD tools and ECM equipment. Once downrange, this rugged Cart locks in place to serve as a platform for deploying Hook and Line components, and other tools.

EOD/ECM Tool Cart

SUMMARY	USERS	EOD and IEDD Technicians
	FUNCTION	All terrain equipment carrier and rigging platform for hook & line as well as firing cable
	ADVANTAGE	Allows Bomb Technicians to securely transport a variety of operational tools as well as ECM and personal cooling units for quick access on site
	CAPACITY	Up to 90 KG [200 lb]

The EOD/ECM Tool Cart presents the Bomb Technician with an increased range of operational capabilities:

- Carry all or any combination of the following:
 - EOD Disruptors
 - Electronic Countermeasures [ECM]
 - X-Ray Equipment
 - Hook and Line / Clearance Kits
 - Personal Cooling Systems
 - Common Hand Tools
- Deploy firing cable / hook and line ropes
- Negotiate up to 20 cm [8"] curb height
- Deploy on difficult terrain: sand, mud, snow and grass

Narrow frame provides a solid platform while allowing technicians to easily manoeuvre around obstacles and through to tight spaces

Quickly folds to a low profile collapsed position

Auto-brake handle locks wheels when released

Sturdy frame and innovative tie down system secures up to 90 kg [200 lb] of tools and operational equipment

Features

- Collapses flat [20 cm - 8"] for ease of transportation and storage
- Sets up in less than two minutes without tools for rapid response on site
- Extremely rugged materials and design, as tested to U.S. Military Standard MIL-STD-810F
- Auto-brake handle engages brakes if released
- Multiple attachment points and rope cleats for management of hook & line ropes and blasting / firing wire or using spring clips or karabiners as anchors
- Optional hanging Tool Pouch adds flexibility for transportation of hand tools and hook & line components

Integrated rope cleats for manipulating multiple lines
