

GATESCAN-P Portable Archway Metal Detector

Gatescan-P is the world's most versatile walkthrough metal detector as it can be deployed and transported to virtually any location and be up and running within five minutes by a single operator!

Gatescan-P operates from rechargeable sealed batteries, has zone specific detection and is designed for use in demanding environments. It is the only multi-zone metal detector small enough to fit in the boot of a car.

Gatescan P is ideal for sporting events, conferences, schools, VIP security or for any event or location requiring high discrimination metal detection combined with ease of use and total portability.

Gatescan-P is remarkably user-friendly and simple to operate and little operator training is required.

What Gatescan-P offers you

- Head to toe, zone specific detection
- A digital I/O, secured access control panel that has been designed for intuitive ease-of-use and has a built-in self-diagnostic function that will notify operators immediately if there is a situation requiring attention.
- A battery life of 40 hours
- A total weight of less than 50 kgs
- In or outdoor use
- The size of a pull along suitcase when collapsed - fits in the boot of a car.
- 100 sensitivity settings- giving users an unprecedented array of responsive and variable security magnetometer options

Sporting Events	Conferences and Conventions
V.I.P. Protection	Special Events

SPECIFICATIONS

INTELLIGENT USER FRIENDLY CONTROL PANEL WITH PROGRAMMABLE MEMORY

- Digital I/O
- Keypad with security access control (lock out)
- LED bar graph for target strength
- LCD for keypad interaction
- Adjustable volume control
- Memory feature for location specific user settings
- Self test/automatic calibration at turn ON
- Last setting memory & audio indicator when turned OFF
- Transit counter

SPLIT COGNITIVE IN FORM & FUNCTION

- Specialized design allows operator to monitor surrounding areas

DYNAMIC SINGLE PERSON PORTABILITY

- Weighs approximately 40 kgs (90 lbs)
- Assemble/disassemble in only 5 minutes
- Single person setup

EFFECTIVE HEAD TO TOE, ZONE SPECIFIC DETECTION

- 3 sensor zones with LEDs

100 LEVELS OF ADJUSTABLE SENSITIVITY

- Designed to meet your level of need

DESIGNED FOR USE IN DEMANDING ENVIRONMENTS

- Indoor or outdoor use
- ABS polycarbonate alloy - for high impact strength and durability
- Battery operated (includes AC adapter & recharge kit)
- 40 Hour battery life
- Multiple units may work within close proximity to one another
- Designed to meet regulatory standards: FAA, NILECJ-0601.00
- Designed for EMC compliance (CE)

PORTABLE DIMENSIONS

- 37" (.9 m) x 23" (.58 m) x 26" (.66 m)

ENVIRONMENTAL DESIGN SPECIFICATIONS

- Temp -20 C to +70 C (-4F to +158 F)
- Relative Humidity 95%
- Environmental Rating: IP55
- UV resistant

WARRANTY

- 12 months parts and labour

WARNING:

All metal detectors should only be used by trained personnel who have a thorough understanding of their operation. If the user of a metal detector does not follow the operating manual and the unit is not set up properly, it can allow metal objects to pass through undetected.
